-

WORK EXPERIENCE

Artificial Intelligence Intern, CSRBOX

02 July 2025 - 16 July 2025

- Worked on Artificial Intelligence concepts and applications.
- Performed data analysis and model experimentation for problem-solving tasks.
 - Assisted in basic AI and technology-related tasks during internship
 - Learned fundamentals of Artificial Intelligence and practical workflow
 - Worked on data handling, research, and team collaboration activities
 - Improved problem-solving and communication skills through real-world tasks

Duration: 15 Days

Python Developer Intern , Vibrant Web Tech

05 Jan 2026 - 05 April 2026

- Developed web-based applications using Python and Django.
 - Worked on the Hospital Management System project including admin dashboard, appointment management, and discharge system. Improved UI/UX and system functionality for better user experience
-

PROJECTS

E-commerce Website

- Developed an E-commerce website with features like user login, product listing, cart management, and order placement, gaining hands-on experience in web development and database handling.

Hospital Management System

- Technologies: Python, Django, HTML, CSS, JavaScript, SQLite. Developed a web-based Hospital Management System to manage hospital operations efficiently. The system allows administrators to manage doctors, patients, and appointments while providing secure login access for different users.
-

EDUCATION

Bachelor of Engineering in Information Technology

- Gujarat Technical University - 8.52 CGPA

Degree in Information Technology

SAL Engineering & Technical Institute, Ahmedabad | 2022 - 2026
